Management's Responsibility for the Financial Statements

The Organization's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. Summary of Significant Accounting Policies

Organization

United Way of Mid-Hudson Valley, Inc., does business as United Way of the Dutchess-Orange Region ("United Way"). The mission of United Way is to build a stronger, healthier community by raising resources and developing partnerships that make a measurable difference in peoples' lives. United Way's support comes primarily from campaign contributions from individuals and corporations who reside in or conduct business in Orange and Dutchess Counties, in New York State.

United Way of Mid-Hudson Valley, Inc., d/b/a United Way of the Dutchess-Orange Region was formed April 5, 2011 when United Way of Dutchess County, Inc. merged with and into United Way of Orange County, Inc.

Net asset classification

Net assets are classified and reported as follows:

<u>Unrestricted net assets</u> – Net assets that are not subject to donor-imposed restrictions and are available to support and fund United Way programs and other organizations through the granting of amounts raised during the annual campaigns. Donor restricted contributions are reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the contribution is recognized.

<u>Temporarily restricted net assets</u> – Net assets subject to donor-imposed stipulations that are available to fund programs and organizations in Dutchess and Orange Counties. Grant recipients and amounts are specified by the donor.

<u>Permanently restricted net assets</u> – Net assets subject to donor-imposed stipulations that they be maintained permanently. Generally, the donors of these assets permit the United Way to use all or part of the income earned on these investments for general or specific purposes.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Estimates that are particularly susceptible to change, relate to the determination of the allowance for pledges receivable, depreciation and the allocation of functional expenses, among others.

Cash and cash equivalents

United Way considers all investments in money market accounts absent of withdrawal restrictions and demand deposits at banks to be cash and cash equivalents.

1. Summary of Significant Accounting Policies, continued

Certificates of deposit

Certificates of deposit are not considered debt securities and represent certificates with original maturities of less than one year but greater than 90 days.

Investments

The United Way's investments consist of investments in pooled mutual funds at the Community Foundations of the Hudson Valley and mutual funds held in the United Way's brokerage accounts. The United Way reports its investments at fair value based on quoted market prices.

Property and equipment

Property and equipment are recorded at acquisition cost if purchased and at estimated fair value if donated. United Way's policy is to expense the purchase of property and equipment under \$1,000. Buildings, furniture and equipment are being depreciated over estimated useful lives of five to thirty years using a straight-line method. Leasehold improvements are being amortized over the lesser of the life of the lease or life of the improvements using a straight-line method. Depreciation expense amounted to \$42,059 and \$66,820 for the years ended June 30, 2013 and 2012, respectively.

Endowment classification, investment and spending policies

United Way follows FASB Accounting Standards Codification 958-205 (ASC 958-205), "Presentation of Financial Statements" The standard provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). The standard also improves disclosures about an organization's endowment funds (both donor restricted endowment funds and board designated endowment funds) whether or not the organization is subject to UPMIFA. United Way is subject to the New York State enacted version of UPMIFA.

Under the terms of the directives, the Board of Directors can be given the ability to distribute so much of the corpus of any endowment or separate gift, devise, bequest, or fund as the board in its sole discretion shall determine. As a result of the ability to distribute corpus, all contributions not classified as temporarily restricted or permanently restricted are classified as unrestricted net assets for financial statement purposes.

Temporarily restricted net assets consist of restricted contributions receivable, and the remaining portion of donor-restricted endowment funds that are not classified as permanently restricted net assets. When donor restrictions expire, that is, when a stipulated time restriction ends or a purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

1. Summary of Significant Accounting Policies, continued

Endowment classification, investment and spending policies, continued

Permanently restricted net assets represent the fair value of the original gift as of the gift date and the

Permanently restricted net assets represent the fair value of the original gift as of the gift date and the original value of subsequent gifts to donor-restricted endowment funds.

United Way has adopted investment and spending polices for endowment assets that attempt to provide for long term growth. United Way's spending and investment policies work together to achieve this objective. The investment policy establishes an achievable return objective through diversification of asset classes. The current long-term return objective is to achieve a growth rate of 5% real growth per year over inflation. Actual returns in any given year may vary from this amount. The target payout rate is 5% of the prior three years moving average market value of the portfolio and will be available for expenditure consistent with the terms of the gifts. To achieve long term capital appreciation with a moderate level of risk, United Way has deposited its endowment funds with the Community Foundations of the Hudson Valley for investment management.

Public support and revenue

Annual campaign contributions are generally available for unrestricted use in the campaign year unless specifically restricted by the donor. Unconditional pledges are recorded as earned when pledged. The majority of pledges are received from a broad base of Dutchess and Orange County contributors as a result of the annual campaign. An allowance for uncollectible promises is provided based on management's evaluation of potential uncollectible promises receivable. Management uses various factors to determine the allowance including assessments of historical uncollectible rates and adjusting for current local economic conditions to arrive at the most likely loss rate.

Grants and other contributions of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are classified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

Endowment funds are comprised of contributions and investments that are classified as permanently restricted net assets (donor stipulated), temporarily restricted (donor advised) and board designated unrestricted net assets (board advised). Investment earnings on the donor stipulated and the donor advised portion are classified as temporarily restricted until appropriated for expenditure. All other earnings are classified as unrestricted net assets.

United Way follows Financial Accounting Standards Board Accounting Standards Codification 958-605-25 ("ASC 958-605-25"), "Transfers of Assets to a Not-for-Profit Organization or Charitable Trust That Raises or Holds Contributions for Others". ASC 958-605-25 establishes standards for accounting for certain transactions in which an entity (the donor) makes a contribution by transferring assets to a not-for-profit organization or charitable trust (the recipient organization) that accepts the assets from the donor and agrees to use those assets on behalf of, and/or transfer those assets, to an unaffiliated entity (the beneficiary) that is specified by the donor. These transfers shall not be considered contributions but instead as transactions to be reported as a separate line item in the statements of activities.

1. Summary of Significant Accounting Policies, continued

Functional allocation of expenses

The cost of providing the various programs and the supporting services has been summarized on a functional basis in the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and the supporting services in reasonable ratios determined by management.

Fair value of financial instruments

The carrying amounts of cash, cash equivalents, certificates of deposit and short-term pledges receivable reported in the statements of financial position approximate fair values due to the short maturities of those instruments.

Fair value measurements

United Way follows Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820) "Fair Value Measurements". Under ASC 820, United Way determines the fair market value of its financial instruments based on the fair value hierarchy established in the standard. United Way is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A hierarchy was set by ASC 820, all financial instruments measured at fair value are required to be classified as Level 1, Level 2, or Level 3.

Level 1

Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market.

Level 2

Level 2 inputs are observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable.

Level 3

Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability. Level 3 assets and liabilities include financial instruments whose value is determined by using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Measure of operations

In its statements of activities, United Way includes in its definition of operations all revenues and expenses that are an integral part of its program and supporting activities. All endowment activity and other items that management considers not an integral part of its program and supporting activities are recognized as non-operating activities. Non-operating investment income is generated from United Way's endowment; operating investment income is generated from interest and dividends on cash reserves and brokerage account investments.

Income taxes

United Way is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes. It is not classified as a private foundation under Section 170(b)(1)(A)(vi).
