

Output and Outcome

Outcome Statement(s): An outcome is a benefit and/or change for program participants during and after program activities. Remember outcome statement must be measurable

Outcome Indicator(s): What will you be measuring (specific items of information) that track the program's success and achievement of an outcome?

Targets: A numerical objective for a program's level of achievement on its outcomes.

Data Collection Method(s): Include how often and when you will collect data on each indicator. For example, will you collect data at the beginning and end of the program? How will you collect it? Will you conduct surveys? If so, please attach a copy of your survey.

Outcome 1

Outcome Statement	<ul style="list-style-type: none">○ Education - Youth will enroll in programs that develop positive behaviors and/or read proficiently grade level○ Education - Increase families' access to education and workforce training programs○ Financial Stability - Crisis Intervention○ Health - Families will experience greater food security○ Veterans-Housing Assistance○ Veterans-Legal Assistance
